TRADE
OLD **IN** NEW

Trade-in and Trade-up

MT-1/WT3   MT-1/WT1

If you own an older-generation Probewell product, you are automatically eligible for our trade-in program, meant to ensure that our customers get all the benefits of our latest innovation by transitioning to an up-to-date version of the solution.

Trade in your older generation Probewell tester and get an up to $1,000 discount on the purchase of any of our latest models.

- **$1,000** toward the purchase of a MT-1/WT3 or MT-1/NT9
- **$500** toward the purchase of a MT-1/WT1, MT-1/NT5 or MT-1/NT4

Truly tailored to your needs

The WT series' wireless technology, combined with the Probewell Connect 2.0 app, provides more flexibility in developing the specific add-on features our customers need.

Firmware and software updates are supplied free of charge when new features are released by Probewell's R&D team.

If you have any questions or if you need further assistance, please contact us at sales@probewell.com

Why migrate toward WiFi technology?

It's time to make the leap and adopt our next-generation WT series wireless models: MT-1/WT3 and MT-1/WT1. Enjoy the same and accuracy and ease of use, plus so much more...

Leverage proven technologies to streamline your testing process:

- Easily control your Probewell wireless meter tester with the Probewell Connect app, using any portable device, whether running iOS, Android or Windows 11.
- Reduce human error and speed up the testing process by minimizing redundant clerical tasks
  - Integrated barcode scanner: When you scan the barcode, the Probewell Connect 2.0 app will auto-populate the required fields with the information needed to perform the test, including the meter ID number.
  - Save time by customizing the configuration of your applications and share the standardized profile with your team members.
  - Share your findings for further analysis by sending detailed CSV or PDF test reports by email from a mobile device.
    - Test records include time-stamped and geolocation data (GPS).
    - All PDF reports can be personalized with your company logo and other information.

Make smarter, data-driven decisions.

PROBEWELL TRADE-IN PROGRAM

"Change before you have to."

—Jack Welch

Probewell continuously develops advanced technologies in parallel with the utility industry's ever-changing requirements, because we believe it is mutually beneficial to establish a dynamic and durable relationship with our business partners.
